The Achievement Now program is a comprehensive school reform model that is designed to help ensure that no child is left behind. The program provides support to students from low-income families and helps them to achieve their full potential.

The Achievement Now Model

The Achievement Now model is based on the following four pillars:

- **High expectations:** Achievement Now schools set high expectations for all students, regardless of their background or ability. They believe that all students can learn and achieve, and they provide the support and resources necessary to help them succeed.

- **Effective teaching:** Achievement Now schools focus on providing effective teaching that is research-based and engaging. They use a variety of instructional strategies to meet the needs of all learners, and they provide teachers with the professional development they need to be successful.
- **Parent and community involvement:** Achievement Now schools believe that parents and the community play a vital role in student success. They involve parents in their children's education and provide opportunities for them to volunteer and participate in school activities. They also work with community organizations to provide students with additional support and resources.
- **Data-driven decision-making:** Achievement Now schools use data to track student progress and make informed decisions about how to improve instruction and services. They use data to identify students who are struggling and provide them with the additional support they need to succeed.

The Impact of Achievement Now

The Achievement Now program has been shown to have a positive impact on student achievement. Studies have shown that students who attend Achievement Now schools are more likely to graduate from high school and college, and they are more likely to earn higher incomes. They are also less likely to be involved in crime or to drop out of school.

The Achievement Now program is a valuable resource for schools that are committed to helping all students succeed. The program provides a comprehensive approach to school reform that is based on research and

proven results. Schools that implement the Achievement Now model can help to ensure that no child is left behind.

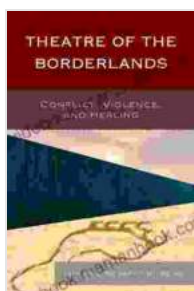

How You Can Help

There are many ways that you can help to support the Achievement Now program. You can:

- **Donate to the Achievement Now Foundation.** Your donation will help to provide scholarships for students, train teachers, and develop new resources.
- **Volunteer your time.** You can volunteer to tutor students, help with fundraising events, or serve on the board of directors.
- **Spread the word about Achievement Now.** Tell your friends and family about the program and encourage them to get involved.

Together, we can help to ensure that no child is left behind.
