## Fry's Use of Language

Fry's use of language in "Fry Plays Three Oberon Modern Playwrights" is one of the most striking aspects of the play. He employs a rich and poetic vocabulary, creating a sense of wonder and enchantment. The play is full of beautiful and evocative imagery, which helps to bring the fairy tales to life on stage.

For example, in the opening scene of the play, Fry describes the forest setting as "a green world of enchantment, where the trees are like tall green candles and the flowers are like little stars." This language immediately creates a sense of magic and mystery, drawing the audience into the world of the play.

Fry also uses language to create humor and wit. The play is full of clever wordplay and puns, which help to lighten the mood and keep the audience entertained. For example, in one scene, a character says, "I'm not a fool, but I'm not a wise man either. I'm just a simpleton." This line is both funny and insightful, and it helps to create a complex and well-rounded character.

### **Fry's Use of Symbolism**

Fry also uses symbolism extensively in "Fry Plays Three Oberon Modern Playwrights." The play is full of symbols that represent different themes and ideas. For example, the forest represents the unconscious mind, while the castle represents the conscious mind. The characters in the play often represent different aspects of the human psyche.

For example, the character of Oberon represents the id, while the character of Titania represents the superego. The conflict between Oberon and Titania represents the conflict between the id and the superego within the human mind.

Fry also uses symbolism to create a sense of mystery and wonder. The play is full of strange and unexplained events, which help to create a sense of the unknown. This sense of mystery helps to keep the audience engaged and guessing until the very end of the play.

## **Fry's Use of Structure**

Fry's use of structure in "Fry Plays Three Oberon Modern Playwrights" is also noteworthy. The play is divided into three acts, each of which focuses on a different fairy tale. This structure helps to create a sense of unity and coherence, while also allowing Fry to explore different themes and ideas.

The first act focuses on the fairy tale of "Cinderella." This act is a relatively straightforward adaptation of the original story, but Fry uses it to explore themes of love, loss, and redemption. The second act focuses on the fairy tale of "Sleeping Beauty." This act is a more complex and nuanced exploration of the theme of love. The third act focuses on the fairy tale of "The Tempest." This act is a meditation on the nature of power and the human condition.

Fry's use of structure helps to create a play that is both entertaining and thought-provoking. The play is full of humor and wit, but it also explores complex and challenging themes. This combination of elements makes "Fry Plays Three Oberon Modern Playwrights" a truly unique and unforgettable theatrical experience.
