

The Day the Game of Golf Changed Forever: The Introduction of the Steel Shaft

The Early Days of Golf

The game of golf has a long and storied history, dating back to the 15th century in Scotland. In the early days of the game, golf clubs were made of wood, and the shafts were typically made of hickory. Hickory shafts were strong and durable, but they were also heavy and inflexible. This made it difficult for golfers to hit the ball with consistency and accuracy.
